BASILICA IN TIME

Stations of the Cross

While the old Stations of the Cross of Franz Stecher were being removed in 1901, the new Stations of the Cross were placed in the chapel. The new stations were made from Munich stone imported from Munich by the firm of Mayer & Co, New York. They would be placed in a wooden oak frame before being hung. A tablet made by Tiffany & Co from New York stated this legend: "These Stations of Cross in memory of Father and Mother. The donor asks your prayers." It was described as "a neat and artistic bronze tablet." The blessing was not held at this time since the old Indulgence crosses, with lights, were left on the wall and attached to the new stations at the time of completion. These lights were lit on the anniversary of the dedication of the church. This was a generous gift to the congregation.
